## TECHNOLOGIES

Proficient	Ruby on Rails	JavaScript	React + Redux	Swift	iOS	SQL
Tools	Git	Docker	Bash	AWS	Google Cloud	iTunes Connect
Some Experience	Python	C++	C	Objective-C	Alexa	Google Home

## EXPERIENCE

### [Shopify](#) - Backend Intern,

May 2018 – August 2018

- Worked on [Exchange](#), a marketplace for selling Shopify stores
- Refactored OAuth flows when moving seller-side app out of Shopify admin
- Implemented caching on homepage, reducing average response time by 50%
- Added tracking to mailers for data purposes, and tuned listing review process

### [Connected Lab](#) - Software Engineer,

September 2017 – December 2017

- Maintained Java Spring backend serving a popular iOS fashion shopping app
- Updated Node.js mock authentication provider for that Java Spring backend

### [Tribalscale](#) - Agile Software Engineer,

January 2017 – April 2017

- Developed new iOS app in Swift for [Fanxchange](#)
- Updated PGA Tour Alexa app and abstracted application logic to Google Home
- Updated internal allocations tool built with React, migrating from Flux to Redux

### [ZurApps Research Inc](#) - Software Developer.

May 2016 – August 2016

- Updated iOS and macOS apps for [MathPad](#) and [RoadTripper](#)

## PROJECTS

### [MTGDeks \(In Progress, Temp name\)](#), MTG Deck Builder,

April 2018 – Present

- Ruby on Rails backend and React Redux front end
- Existing solutions have either good features or a good experience, but not both
- Aiming to provide a feature-complete, low-friction deck building experience

### [MTGCardFetcher](#), Facebook Messenger Bot,

February 2018 – March 2018

- Facebook Messenger Bot for looking up and sharing Magic the Gathering cards

### [PokéList \(In Progress\)](#), Pokémon team planning tool,

November 2017 – Present

### [SwiftyFire](#), iOS development tool,

January 2017 – April 2017

## EDUCATION

### Candidate for Bachelor of Software Engineering, University of Waterloo,

September 2015 – Present

- Including courses in Algorithms, Data Structures, Operating Systems, Numerical Computation, Compilers, Logic and Combinatorics
